FYI,

Pebble is releasing another pre-permitting report. As usual, they have a 2 pager fact sheet, and have posted the data on their web site. Please let me know if you run into obstacles getting copies of this data set, or others in the series, and I will track it down for you. Ideally, the data set should be distributed to your through the Technical Working Group process.

Hanh, I just wanted to let you know Pebble has a process to release these reports in advance of permitting.

Subject PLP Pre-Permitting Data Release - Marine Nearshore Fish and Benthic Invertebrates

Dear TWG Member,

As part of its ongoing commitment to openness, the Pebble Partnership is publicly releasing the tenth installment of the Pre-Permitting Environmental & Socio-economic Data Report Series this Monday, August 31. The latest data to be made available to the public and Alaska media addresses Marine Nearshore Fish and Benthic Invertebrates.

Attached is a backgrounder that presents data from Pebble's Marine Nearshore Fish and Benthic Invertebrate studies. As before, complete copies of the referenced data reports will be made publicly available on the Pebble Project website at www.pebblepartnership.com. The information will also once again be relayed to representatives from all state and federal agencies involved in the review of the Pebble Project. The data and information contained within the Pre-Permitting & Socio-Economic Data Report Series are preliminary and not to be cited or quoted.

Should you have any questions about this latest release, please free to contact me.

Regards,

John Shively,
CEO
The Pebble Partnership
